Doing activities like sewing, knitting, crocheting, or carpentry						
Writing checks or filling out forms						
Playing games such as bingo, dominos or card games						
Driving at night						

CATARACT LIFESTYLE QUESTIONNAIRE

The term “cataract” refers to a cloudy lens within your eye. When a cataract is removed, an artificial lens is placed in your eye to replace the natural lens that has developed into a cataract. This questionnaire will assist us with providing you the best possible options if you do have a cataract. Please fill out this form and bring it with you to your appointment. If you have any questions, we will be happy to assist you with this form.

1. How important is it for you to be free from glasses?

_____ Very Important _____ Moderately _____ Not at all

Patient Name _____ DOB _____

Cataract surgery can almost always be safely postponed until you feel that you need better vision to function. If stronger glasses won't improve your vision anymore, and the only way to help you see better is cataract surgery, do you feel your vision is bad enough to consider cataract surgery now?

Yes I feel that my vision is bad enough that I need to consider cataract surgery now.

No My vision is not that bad, and I am not ready to consider cataract surgery yet. I will return when my vision worsens.
